Code Signer - Defect #789

No jars are signed when changing the codebase

02/19/2014 05:50 PM - Nicola Gervasi

Status:	Closed		**Start date:**	02/19/2014
Priority:	Normal		**Due date:**

Target version:				
Browser (if web client):				

Description
I've added one domain to the codebase list and run the tool again (headless mode) to update all jars signature but it looks like it doesn't notice the difference and so it doesn't resign the jars.

History

#1 - 02/19/2014 08:24 PM - Patrick Talbot

- Status changed from New to In Progress

Well, technically the signature hasn't changed, so it doesn't find anything that needs resigning.
I will add an item 'all' to the selection property so that it resign them all regardless.

#2 - 02/19/2014 11:33 PM - Patrick Talbot

- Status changed from In Progress to Closed

'all' selection was added to v1.1.1
