Description			
The solution should be to sign the object for the new Servoy version (?)			

History

#1 - 02/20/2014 03:43 PM - Patrick Talbot

The solution to what?

Signing can be a solution to Smart client issues, but it's not going to do anything in web client.

What is the issue and do you have an Exception stack trace in servoy_log.txt?

#2 - 03/11/2014 12:08 PM - Harry Schurink

This error shows in the server log:

The error comes after selecting the files to be uploaded and clicking "start upload" and finally "done"

At that time the error shows in the log

org.apache.wicket.markup.MarkupException: Unable to find component with id 'sv_4B0A0B9B_B95B_4A0D_9284_137FCAD5E139' in [MarkupContainer [Component id = sv_22528980_78C0_4BA4_8F9A_68DEDB347776]]. This means that you declared wicket:id=sv_4B0A0B9B_B95B_4A0D_9284_137FCAD5E139 in your markup, but that you either did not add the component to your page at all, or that the hierarchy does not match.

- Priority changed from Immediate to Normal

Please don't set the priority to "immediate" unless you are prepared to sponsor the development. Do you have a sample solution that reproduces this?

The problem seems misunderstood.

This is an OSGI servoy developer only problem, as workaround you can copy (not move) the commons-logging.jar from "lib" to your servoy install "plugins" dir.

Thanks for the clarification and tip Jan!
I will leave the ticket open for reference.

Works fine in 7.4+ with v1.0.8
