Description

I can't use the busy plugin in webclient with the application server.

In developer the attached test solution works fine. But not in the application server.

Do you have the 'servoy.webclient.nice.urls' admin property set to true?
- The plugin is not compatible with that property, this is a known issue.

Is there any exception in the Servoy log?

Yes, i see that nice.url is active.
Without nice.url it is working now.
Thank You!
