Servoy JasperReports Plugin - Defect #824

Virtualizer issue

10/03/2014 09:27 AM - Rob Gansevles

Status:	Resolved	**Start date:**	10/03/2014
Priority:	Normal	**Due date:**	
Assignee:		**% Done:**	0%
Category:		**Estimated time:**	0.00 hour
Target version:			
Browser (if web client):			

Description

The virtualizer is using a static variable in JasperReportRunner.
When 2 reports are running at the same time this static variable will be used by both reports, one report run will clear the virtualized data from the other.

This should be moved to some place tied to the calling client
